

Director for National Security Strategy and Integration

Job Code: 7531

Salary Grade: S15

FLSA Status: Exempt

The following statements are designed to outline the general functions and typical responsibility levels associated with positions in this classification. They are not intended to serve as an exhaustive list of specific duties or requirements for individual positions assigned to this classification.

Duties and Responsibilities

Leads the strategic defense research mission within the Office of the Vice President for Research and Partnerships (OVPRP), including coordination of national security strategy and integration of defense-related research activities.

- Manages daily operations within the Office of the Vice President for Research and Partnerships (OVPRP) to support and grow research excellence through the convening and integration of defense-related assets.
- Represents and assists the OVPRP across the full spectrum of national security strategy and integration activities.
- Collaborates closely with senior leadership, faculty, staff, industry partners, government agencies, and national laboratories to advance OVPRP's mission and support coordinated national security strategy and integration efforts.
- Oversees the portfolio of OVPRP National Security research and contributes to the congressional appropriations process, supporting national security strategy and integration efforts.
- Ensures alignment of OVPRP national security strategy and integration efforts with the strategic goals of the University and other affiliated units.
- Fosters collaboration across multidisciplinary teams to support growth in research and educational initiatives aligned with national security strategy and integration priorities.
- Provides strategic leadership and support for strengthening the University's role in aerospace, defense, and national security research through coordinated strategy and integration of institutional capabilities.
- Works with the University's State and Federal Relations teams to grow aerospace and defense-related presence and federal funding in Oklahoma in alignment with the University's national security strategy and priorities.
- Collaborates with faculty to develop competitive, strategically aligned proposals in response to federal funding opportunities that support national security strategy and integration priorities.
- Partners with college deans, department heads, and research leaders to increase the quality and volume of defense-focused research proposals.
- Provides day-to-day leadership, supervision, and support for assigned personnel, ensuring effective performance, professional development, and alignment with OVPRP's national security strategy and integration objectives.
- Builds and grows corporate partnerships and corporate-sponsored research initiatives aligned with national security strategy and integration priorities.
- Develops and hosts internal and external events, workshops, and conferences to promote the University's national security strategy and integration.
- Ensures compliance with University policies as well as DoW and other federal regulations related to research contracts and operations supporting national security strategy and integration activities.
- Performs additional duties as needed to fulfill the mission and goals of the department.

Minimum Qualifications

Education:

- Bachelor's degree

Equivalency/Substitution: Experience or a combination of education & related experience can be considered in lieu of degree. A one-to-one ratio is used to determine the number of years of experience required in place of a degree.

Experience:

- 10 years of relevant experience.

Certifications or Licenses:

- None

Verification of education and licensure (if applicable) will be required if selected for hire.
