

Regarding the Coronavirus:

In response to the public health threat of the Coronavirus (COVID-19), the University of Oklahoma Health System is working to protect our patients, visitors, and staff and to reduce the spread and impact of this virus. In partnership with our Employee Health Department, one of the steps we are taking is to screen known visitors to our campus for potential exposure to the virus prior to coming onsite.

It is very important that you only ask these questions to candidates you have decided to interview.

Please know that an affirmative response will NOT impact your application in any way. In the event of a “Yes” response, we may choose to conduct a phone, Skype or Zoom interview instead of an on-campus visit.

Are any of the following situations applicable to you?

- You have traveled outside the state of Oklahoma, in the past fourteen (14) days.
(Please circle: Yes/No)
- You have been in close contact with a person who has been placed under investigation, or confirmed to have the Coronavirus. *(Please circle: Yes/No)*
- You currently have fever and symptoms of lower respiratory illness (such as cough or difficulty breathing), runny nose, cough, or sore throat. *(Please circle: Yes/No)*
- You have traveled from the following states: **CT, NJ, NY, WA, CA, LA**. If so, what date did you arrive in Oklahoma? _____

People traveling from these states are subject to a mandatory 14 day quarantine, unless you are a health response worker. Your quarantine would end _____.

Retain a copy of this questionnaire with your other applicant documents.
